

DS AUTOMOBILES

BROUGHT TO YOU BY
DS STORE EGLINTON

LOCATION: Eglinton

CLIENT: JC Halliday & Sons

MAIN CONTRACTOR: P&K Mc Kaigne Ltd

CONSULTANT: Patrick Mc Caul Engineers

CONTRACT PERIOD: 5 months

PROJECT SYNOPSIS:

Another great achievement accomplished as this is the only DS Car Showroom in NI, based in Eglinton for JC Halliday & Sons.

We completed a full electrical installation completed within a short programme consisting of main switchgear and distribution power including full liaison with NIE. A complete showroom lighting installation to include internal, external and emergency lighting tailored to suit the display purposes of the new vehicles and flexible enough to allow complete control and durability over each area. Installation of a thorough fire alarm and data network systems. All electrical works associated with mechanical wiring. We tested and commissioned the project with an informal handover to the client in March 2018.
