

LOCATION: Magherafelt

CLIENT: Genesis Crafty

MAIN CONTRACTOR: Heron Bros Ltd

CONSULTANT: Delap & Waller

CONTRACT PERIOD: 2 months

PROJECT SYNOPSIS:

A much needed expansion and new bakery for a leading Northern Ireland bakery, Genesis.

We completed an electrical installation within a short programme consisting of a new mains NIE Incoming power supply with full liaison in house. HM Electrics successfully installed switchgear and distribution power including full containment to the warehouse and offices. We have mounted warehouse and office general and emergency lighting tailored for bakery purposes. Installation of External Street and Flood lighting. We have completed a lightning protection system, with the latest in fire protection, security and data network installation. All electrical works associated with mechanical wiring.

HM Electrics successfully tested and commissioned the project with handover without any snags to the client in December 2017.
