

**LOCATION:** Ballymena, Braid Valley Care Complex

**CLIENT:** Northern Health & Social Care Trust

**MAIN CONTRACTOR:** R J McKelvey Construction Ltd

**CONSULTANT:** HM Electrics Ltd

**CONTRACT PERIOD:** 20weeks

**PROJECT SYNOPSIS:**

H.M. Electrics Ltd have been appointed electrical contractor to supply, install, test, commission and maintain the electrical works associated with the refurbishment and remodeling of an existing second floor within the building at Slemish House, with the Braid Valley Hospital Complex on behalf of the Western Health & Social Care Trust with main contractor RJ Mc Kelvey Construction Ltd. The works includes isolation, disconnection, removal and disposal of existing installations, modification and temporary works, main spine cable containment, distribution boards, supply and installation of luminaires, general power, dado trunking/networks, fire detection installation, data network installation, access control and any associated mechanical wiring. This installation brings the facility up-to-date with modern technology and enables it to operate in an efficient manner.

All works carried out by H.M.Electrics Ltd will have been tested and commissioned with demonstrations prior to handover to the client without any delays.
